SERVICES

RMS
2002 - 2017
15TH ANNIVERSARY

70° & SUNNY NEXT WEEK

As I write this it is pouring rain and forty degrees. Next week looks like to be the beginning of some great weather. The phone has been busy with early requests for spring service as well as launch dates. We are finishing up our winter work and are preparing for a very busy spring.

Now is the time to submit your spring work orders so we may begin preparing your boat for launching. As a reminder, work orders are handled on a first come first serve basis...so please don't delay! As an added incentive, we are offering our customers a great opportunity to save money on all basic spring services.

Our business has really taken off these past few years...as evidenced by the number of new customers we have that are just getting into boating, as well as existing customers choosing to upgrade their boats and/or engines. While new boat sales are slowly picking up, the market for used boats continues to be strong. Our engine and electronics sales in 2016 were up over 70% and we have restocked our shelves with the latest electronics and Honda & Yamaha engines. If this is something you have been considering, now is the time to take advantage of some great deals, our expanded facility and our talented crew.

FIFTEEN GREAT YEARS

Fifteen years ago I had to make some decisions. Traveling the world as a fishing guide was probably not the best way to raise a family. From my early teens through college I supplemented my income maintaining and repairing boats. After exploring some other career options and a few disastrous interviews I decided to stick with what I knew best. With the support of my wife I rented a van, purchased some magnetic stickers for the sides and ventured out on what would be one of the best decisions I ever made. I was based out of my parent's garage working day and night doing whatever it took to get the business off the ground. The response was tremendous.

That was April of 2002. We outgrew my parent's garage within months. I believe our work ethic, talented employees and, most importantly, our loyal customers are what made Ryan Marine evolve to where we are today. We stuck by some very simple fundamentals: perform top quality work at a reasonable cost, attention to detail and effective communication with the customer. Of course, none of this matters without the loyalty of our customers, many of whom have been with us since day one.

Despite this growth we have remained a small company that strives to improve every day. Always feel free to stop by the shop, send us an email or give us a call. We want to hear you're your opinion good or bad. Our customers are what is going to keep us going strong for another fifteen.
